

CERTIFICATION FOR:

Mesa Petroleum Co.
McLeod Well No. 2E

Located 1530 feet from the North
line and 930 Feet from the West
line of Section 34, Township 28
North, Range 10 West, N.M.P.M.,
San Juan County, New Mexico

The undersigned, an employee of Mesa Petroleum Co. ("Mesa"),
certifies that:

1. Mesa is the operator of the captioned well.
That well is drilled in the Basin-Dakota
Pool. After notice and hearing, the New
Mexico Oil Conservation Commission (or Oil
Conservation Division, as the case may be)
issued its Order R-1670-V finding that infill
drilling in that pool will increase the
recoverable reserves under the various
proration units in that pool, will result in
more efficient use of reservoir energy, and
will tend to ensure greater ultimate recovery
of gas from that pool.
2. The ability of the captioned well to produce
into any connected pipeline has not been and
will not be restricted by Mesa in any manner
for the purposes of avoiding the application
of the New Mexico Natural Gas Pricing Act to
sales of natural gas from that well.

This certification is made to satisfy requirements imposed
by a State agency, namely, requirements imposed by the New Mexico
Oil Conservation Commission in its Order R-5436.
