Re: Hardship Gas Well Application
    San Juan 29-5 Unit #91   B-35-29N-5W

Dear Mr. McCallister:

You are hereby granted an emergency hardship classification
for the referenced well. This classification will expire
on July 9, 1986.

We have forwarded your application to Santa Fe to be docketed
for hearing for two reasons:

1) The application states that there is significant water
    production from the well. No water has ever been reported
    on form C-115. This needs to be explained.

2) Your projected loss of reserves due to shut-in is based
    on only one month of production after extended shut-in.
    Previous shut-ins did not result in loss of reserves,
    and experience in this area shows that some wells eventu-
    ally recover from extended shut-ins.

Sincerely,

Frank T. Chavez
District Supervisor

    Re: Hardship Gas Well Applications
           San Juan 29-5 Unit No. 91, Unit B,
           Sec. 35, 29N, 5W

Dear Mr. McCallister:

Your application as captioned above has been received.
The application will be set for hearing on the May 14
examiner docket. We will expect the points mentioned by
Mr. Chavez to be covered in your testimony as well as
data on the minimum sustainable rate of flow.

Very truly yours,

R. L. STAMETS,
Director
