Re: Case No. 8890
Order No. R-8236
Application of Northwest Pipeline Corporation for
Hardship Gas Well Classification, Rio Arriba
County, New Mexico

Dear Mr. Stamets:

Northwest Pipeline Corporation herewith requests that its application for a hardship well classification for its San Juan 29-5 Unit Well No. 91 located 1140 feet from the North line and 1840 feet from the East line (Unit B) of Section 35, Township 29 North, Range 5 West, N.M.P.M., Basin-Dakota Pool, be heard de novo before the Commission.

The well was heretofore granted an emergency hardship classification which will expire on July 9, 1986. The condition of the well is such that if the well be shut-in at that time, the strong possibility exists that it would not be possible to again place it on production, and so an extension of that emergency hardship classification is requested until after the Commission enters its Order following that hearing.

Your courtesy to us in this matter is sincerely appreciated.

Very truly yours,

Rodey, Dickason, Sloan, Akin & Robb, P.A.

Paul A. Cooter
