

1. ① Application of the OCD on its own motion for

adoption of a new rule 315 and 903 to establish a gas priority production schedule.

② Applicant in the above styled cause seeks

adoption of a ~~substantive~~ hierarchy of classes of gas production in times of severely restricted demand for gas from New Mexico wells. Also to be considered will be the application of such rule to purchasers with special marketing affiliates.

① amendment of its Rule 902.

② amendment of said rule to provide for notice by purchasers to producers when such purchasers are unable to take gas in accordance with the provisions of such rule.

③ adoption of a new rule 413 to regulate sales of gas by separate owners in a well.

④ adoption of a rule to prohibit such sales in the absence of agreements or conditions which protect the correlative rights of all the owners in any affected well
