Re: Drickey Queen Waterflood Unit, Chaves County, New Mexico.

Gentlemen:

We enclose photostatic copy of letter received from the attorneys for the Estate of W. L. Kietzman. As you will note from this letter, the children plan to quit claim their interest in Chaves County minerals to Mrs. Kietzman and she will execute the Unit Agreement and furnish us with certified copies of the quit claim deeds.

The above is furnished to you in order that you might stay abreast of our progress in this matter.

Very truly yours,

NEVILLE G. PENROSE, INC.

Neville G. Penrose, Inc.,
Attention of Land Department,
146 Allen Building,
Midland, Texas.

Gentlemen:

I regret the delay in not returning to you the unit agreement for the Dricky Queen Water Flood Unit executed by Mrs. Kietzman and her children. In order to simplify the matter, the three children are going to quit claim any interest they may have in the interest to Mrs. Kietzman. At the time I return the unit agreement to you executed by Mrs. Kietzman, I will furnish you with a certified copy of each quit claim deed as recorded in Chaves County.

Yours very truly,

Fred A. Johnston

Re: Proposed Drickey Queen Sand Unit
Chaves County, New Mexico

Gentlemen:

On February 16, 1959, execution copies of the Unit Agreement and Unit Operating Agreement were sent to all working interest owners.

In response, many working interest owners have executed and returned the Agreements or have reported progress with their associated working interest or override owners which indicates commitment of many of the tracts. A few operators have refused to join or have informed us that they will join only in part. The resulting area that is now indicated as constituting the unit is shown unshaded on the enclosed plat. The attached table shows the resulting participation for the reduced area. In submitting this table, we wish to point out that the U. S. G. S. found some acreage corrections which causes the minor change from the tabulation sent out November 20, 1958. Briefly, the probable future relation between the unit and the withdrawn tracts under waterflood will be as follows:

1. John Trigg chose to keep his large block out of the unit primarily because he wishes to continue as operator of this property. He has promised to cooperate with our flood program and a line input well agreement is under preparation. We expect to submit an executed copy of such a line agreement to the Federal and State agencies with the unit agreement as finally executed.

2. Texas Pacific Coal and Oil Company is seeking the inclusion of Drickey Tract 37 in the proposed Rock Unit. They have executed the agreement with a qualification to commit their interest in Tracts 27, 29 and 30 to the Drickey Unit. Cooperation by the Great Western operated Rock Unit is assured.

3. In a like manner, Gulf has asked that their Drickey Tract 44 be included in the Rock Unit, but will commit their other tracts to the Drickey Unit.

4. While R. R. Woolley has not specifically requested that his Drickey Tract 26 be included in the Rock Unit, it is assumed that Woolley

will consider such a move desirable in view of the Gulf and Texas Pacific action. While not yet committed, we trust that Woolley will commit his interest in Tract 28 to the Drickey Unit.

5. J. I. O'Neill, Jr. is not willing to commit his Tract 46 to the Drickey unit for the participation basis used. One of the two wells on this tract has been plugged for some time but the other well is still making top allowable. The Engineering Committee was not aware of this and estimated future primary by extending the apparent decline trend of a 2 well lease. Subsequent production data supports O'Neill's position, but since the interpretive data used in the participation formula must not be changed after some operators had executed the agreement, Mr. O'Neill has informed us that he will not join now but will seek admittance after the effective date under the expansion clause. This arrangement appears satisfactory since development should not approach Tract 46 for at least 12 months.

6. Two one well tracts (No. 35 and 39) will not be committed to the unit according to information received from the operator of each tract. These two "windows" in the unit will create a development problem which we believe can be handled reasonably when and if necessary. As long as the Drickey Unit waterflood development has not reached these two tracts, we will encourage the owners of these two tracts to seek inclusion in the unit under the enlargement provisions.

As we have reported previously, the Cities Service pilot test on its Government "B" lease has shown a good production response. This, in our opinion, makes it urgent that the Drickey Unit be acted upon promptly by all parties so that the Unit may be declared in effect as quickly as possible. Royalty owners under the few privately owned tracts have not been contacted. This we now propose to do in the next few days for those tracts included in the reduced area as reported herein. Our District Land Office in Roswell will handle this work by personal contact. We propose to use this method of contact since the royalty owners are few in number, are located in the Roswell, New Mexico vicinity and are generally people with whom our people are now acquainted. If there is any objection to this procedure, please contact us at once. If there is any information you wish to convey to our royalty owner contact man, please give it to Mr. Emmett Williams, Cities Service Oil Company, Petroleum Building, Roswell, New Mexico.

As soon as all of the expected signed agreements are in, we will submit for final approval by the State Land Commission and the U. S. G. S. We trust they will approve a unit area reduced from the area of preliminary approval since this is the result of our very determined effort to unitize the full area.

Again we wish to encourage all who have not sent in executed agreements to do so. If there are any questions, please contact us.

Very truly yours,

A handwritten signature in cursive script that reads "E. E. Funk". The signature is written in black ink and is positioned above the printed name and title.

The tracts which are now committed or are expected to be committed to the Driskey Queen Sand Unit are listed with their respective primary and secondary participation in the last two columns of the tabulation with sub-totals for Operators having more than one tract.

* J. I. O'Neill was listed as having two wells in the Nov. 20, 1958, tabulation. It was later found that one of the wells was plugged.

The tracts which are not expected to join the Driskey Queen Sand Unit are as follows:

Operator	Tract No.
Gulf Oil Company	44
O'Neill, J. I., Jr.	46
Shelton, Bill	36
Texas Pacific Coal and Oil	37
Trigg, J. H.	4
Trigg, J. H.	5
Whaley Company	39
Woolley, R. R.	26
