Compulsory Pooling Order No. R-21368

Ms. Sandoval,

The NMOCD has issued Compulsory Pooling Order No. R-21368, naming COG Operating (“Concho”) the operator. When Concho applied for this order it listed Devon Energy Production Company, LP (“Devon”) as a pooled party. Devon has since conveyed all its working interest to Concho. Concho now owns 100% of the working interest in the spacing unit.

Concho will still rely on this order which pooled many overrides created from BLM leases. However, we do ask that Devon be released from it.

Respectfully,

Audrey M. Cuyler
