RE: Administrative Order SWD-1413; Second Extension of Deadline
Burton Flat Deep Unit Well No. 2 (API 30-015-41982)
330' FSL, 2360' FEL; Unit O, Sec 27, T20S, R28E, NMPM, Eddy County, New Mexico
Order Date: April 11, 2013
First Extension Deadline: April 11, 2016
Injection into the Devonian formation; approved interval: 11700 feet to 13500 feet

Ms. Good:

Reference is made to your request, dated March 1, 2016, on behalf of Devon Energy Production Company, LP for a one-year extension of the April 11, 2016, deadline to commence injection into the above named well for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection for the existing order is hereby extended until April 11, 2017.

Sincerely,

DAVID R. CATANACH
Director
