13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

OXY USA INC. respectfully request a variance to the 90 day requirement in the approved APD's COA's to complete drilling after the spudder rig has moved off the well. The surface holes were drilled, cased and cemented on 1/8/2020 through 1/11/2020.

OXY plans to fully develop and complete drilling of these wells by the 3rd quarter 2020.

Wells are listed below:
