Dear Mr. Parkam:

This letter is to inform you that more than thirty days have elapsed since the completion of the above mentioned wells. Accordingly, Rule 202 of the State of New Mexico Oil Conservation Division Rules and Regulations state that a copy of electric logs, Forms C-103 and C-105 must be submitted to the District Office and a field inspection of the drill sites must be made before final approval of plugging and abandonment can be made. Field inspections have been made on the above mentioned wells and it was observed that no dry hole markers have yet been installed.

Your assistance in helping close our files would be greatly appreciated. If you have any questions concerning the above, please contact this office.

Sincerely,

Roy E. Johnson  
Petroleum Geologist
