

MANAGEMENT SUMMARY

On March 19, 1985, the Agency for Conservation Archaeology conducted cultural resource survey of a proposed well pad and access road for Amoco Production Company. The land surveyed is privately owned with federally owned mineral rights and is located in Section 20, T17N, R35E, NMPM, Quay County, New Mexico. The surveyed area encompasses a total of 6.07 acres. Due to the absence of cultural materials on the surface of the project area, clearance is recommended.
