\$5,000 One Well Bond #3015475
SE/4 SE/4 Sec. 24-6N-27E

Gentlemen:

In reply to your letter of August 23, 1957, concerning the above-captioned bond, please be advised that we are unable to cancel the bond at this time. The file on the well in the SE/4 SE/4 Section 24, Township 6 North, Range 27 East, shows only a Notice of Intention to Drill, approved by this office on September 11, 1956.

Your letter advises that the operator has discontinued the drilling of this well. However, we have not had any indication from the operator himself, and if the ownership of the well has been transferred to some other operator, we have had no notice of this fact.

The Callihan Interests of Abilene, Texas, to which your letter referred, do not have a plugging bond on file with this Commission.

Very truly yours,

A. L. PORTER, Jr.,
Secretary-Director

Re: Buck Jones Drilling Co.
\$5,000 One Well Bond #3015475
SE/4 SE/4 Sec. 24-6N-27E

Dear Sir:

We have been referred to your office
by the Hobbs office of the Oil Conservation Commission, in
connection with the captioned well.

The principal of the bond advises
us he has discontinued drilling of this well at a depth of 640
feet, however the lease still belongs to the Callihan Interests,
1333 N. 2nd St, Abilene, Texas. We are wondering if this firm
has filed a plugging bond for this location or if they are covered
by a Blanket Bond in the state of New Mexico, and if not if the
necessary papers have been filed with your office in order to
release us from liability under this bond.

We would appreciate an early reply
with any information you have available in connection with this bond.

Very truly yours,

DANIELS INSURANCE, INC.
