Dallas, Texas

RE: Ray Oil Company & T. A. Kirk
Hoover No. 1
NWSE Sec. 30-11N-28E Quay County

Dear Whitey:

I want to acknowledge receipt of Form C-102, Notice of Intention to Plug Well, concerning the above captioned well, as previously filed, and unofficially approved by me earlier, prior to the actual work. Enclosed is your copy of same, for your company's records there in Dallas.

Every thing is filed and up to date on this well except Form C-105, Well Record. This is a recapitulation of all work done at the well from the spudding date to final plugging and abandonment. Please have this form filled out completely, including the formation record as taken from your drillers' log. The latter goes on the reverse side of Form C-105, three blanks of which I am enclosing.

By way of explanation, this Well Record form must be properly submitted to the Oil Conservation Commission before the Ray Oil Company bond can be released.

Kindest personal regards, I am

Very truly yours,

EUGENE A. CHAVEZ,
Geologist
