INSPECTION REPORT

January 31, 1952

RAY OIL COMPANY

Hoover # 1 NWSE
Sec. 30-11N-28E
Quay County

On this date I inspected the above captioned well after being summoned by Mr. E. D. Humphreys. I personally witnessed the wire line measurement to total depth and found same to be 3504'.

Plans are to plug and abandon the well during which operation all casing that can be made free shall be recovered. A notice of intention to plug well, on form C-102 and dated January 28, has been duly filed and approved.

The driller's log for the interval 3255-3504' is as follows:

3255-3265	Sandy lime
3265-3280	Sandy shale
3280- 3305	Sandy lime
3305-3330	Shale
3330-3360	Lime (1/2 bailer water/hour)
3360-3400	Lime
3400-3410	Water sand
3410-3420	Red shale
3420-3440	Sand, coarse grained
3440-3450	Sandy shale
3450-3470	Shale, bluish-red
3470-3504	Shale, Red

Cuttings samples to above final depth were collected and delivered to me.

E. A. C.
EUGENE A. CHAVEZ,
Geologist
