Ir. S. T. Silverstein c/o Quay County Abstract Office P. J. Box 308 Tucumoari, New Moxico

Dear Sir:

In regard to your Form C-101, Notice of Intention to Drill, Silverstein-Ulmer (1, 32), 3 H of S line, 325,0 H of Center 4 line (it would be preferable to state distance from meanest section line or 2293,5% of U section line).

You will remember that us questioned the location as being unorthodox by a fou fect. In order to take cars of this in our records us would like to request you to relocate the well bore 5 ft. north and 5 ft. west, which will rake your location orthodox, as our statewide spacing rule specifies a minimum of 330 ft. from a 40-acre boundary. An affidavit to this effect should be filed with us.

This would make your location read as follows:

333 ft. 1 of S section line, 2208.5 ft. 5 of M section line, Soction 11, Toumship 12N, Range 328.

Your cooperation in this matter will be appreciated. This and receipt of your plugging bond will allow us to approve your Notice of Intention to Drill.

Very truly yours.

STATE OF HER MEXICO OIL CONSERVATION CONFISSION
