BESS OIL & GAS COMPANY

Re: Bess-Rock Bros. No. 1 NE-SW Sec. 10-16N-35E Quay County

The above captioned well is presently fishing, with its total depth being 2370'. The 7" casing was parted while an attempt was made to lewer same with down-stroke jars following underreaming below 2011'. The operator is now trying to recover that portion of the casing that remains in the hole.
