Mr. A. C. Holder
Monument Energy Corporation
P. O. Box 1476
Lovington, New Mexico 88260

Dear Mr. Holder:

On March 16, 1976, I visited your San Miguel County well locations with Sgt. Sanders. The No. 1 Sue-Ann in C-19-17N-17E is properly cleared and leveled with marker in place. If you will file a Form C-103 as "Subsequent Report of Plug and Abandonment" (3 copies) for this well it will be approved and our files can be closed.

File
Neither your No. 1 Sedberry (B-29-17N-16E) nor No. 2 Sedberry (northwest offset) locations have been cleared or levelled but appear to be quite thoroughly dried. This has been an unusually dry winter for the Las Vegas area so I presume there would be no problem in working over the pits and getting the locations in shape now. Raton Gas Company is putting in gathering lines for the Dakota gas wells up by Wagon Mound and even where the trenches have gone to six feet or deeper the soil appears to be very dry.

Yours truly,

CARL ULVOG
Senior Geologist

CU/jr
