Bond No. 4153751

Dear Mr. Dillman:

The Oil Conservation Division hereby approves the
above-referenced bond effective February 2, 1981.

Because of the great amount of wells being drilled
in the State, the Division now requires all one-well
plugging bonds give the exact location of the well;
example: 660 feet from the South line and 660 feet from
the West line. Please have your insurance company issue
a rider with the footage location at your earliest
convenience.

Sincerely,

JOE D. RAMEY,
Director
