Oil and Gas Inspector, District No. 4  
Oil Conservation Commission  
Post Office Box 871  
Santa Fe, New Mexico

Dear Mr. Garcia:

We are in receipt of your letter in which you state that Form C-103 (plugging report) covering the Solano Well No. 1 cannot be approved because the method of plugging proved to be unsatisfactory.

Mr. Biffle is in the State of Michigan. I called him long distance and advised him of the content of your letter under date of October 14, 1960. He requested that I write you and advise that at the present time he has two wells in progress in Michigan, and as soon as he is able to leave the wells in progress he will fly to New Mexico and take care of the Solano Well No. 1.

We trust that the above will meet with your approval.

Yours very truly,

NED BIFFLE OIL INTERESTS
