Re: William Sedberry Well #1
San Miguel County, New Mexico

Gentlemen:

We have made another attempt to cover the pit and remove the debris from subject well. I believe you will now find it to your satisfaction.

When I inspected the location, I discovered that I owed you an apology for my previous letter. Due to the extremely muddy conditions, the dozer operator had scattered all of the thread protectors and smaller items which I had piled up for him to cover up. The mud made it virtually impossible for even the dozer to maneuver around. Needless to say, the operator did not mention this fact to me when he submitted his statement.

I am attaching a copy of a release from Mr. Sedberry on this. He went to great lengths to assure me that everything was satisfactory with him.

I trust that this will meet with your approval on your next inspection.

Yours very truly,

C. O. Thomas
