Dear Sir:

We have received your Form SG-101, Notice of Intention to Drill, covering the above captioned well.

For all practical purposes the location as spotted is hereby tentatively approved. I am returning the SG-101 forms and will anticipate receipt of the Notice of Intention to Drill on our C-101 form submitted in quintuplicate. I am keeping the three surveyor's plats so that an additional two plats shall be forthcoming with your C-101's.

I suggest that you correct the well's footage to read: 1880 feet west of the east line to jibe with the plat footage.

Please find enclosed a number of our Forms C-101, C-102, C-103 and C-105 for your convenience.

Very truly yours,

EAC

Dear Sir:

We are enclosing Notice of Intention to Drill the Shoemaker and Read Well No. 1, in San Miguel County, New Mexico, and certified plats showing the location of the well.

Due to an oversight we failed to secure Form No. C-101, on which to submit our Notice of Intention to Drill.

During your absence from the office today, we talked with Mr. Utz, who informed us that we might secure tentative approval of our notice of intention to drill by filing Form No. SG-101.

Notice of Intention to Drill will be filed on Form No. C-101 as soon as a supply of the form is received from your office.
