Dear Mr. Boren:

The Oil Conservation Division hereby approves  
the above-referenced bond effective this date.

Because of the great amount of infill drilling in  
the state, the Division now requires that all one-well  
plugging bonds have the exact footage location,  
example: 660 feet from the North line and 660 feet  
from the West line. Please have United States Fidelity  
and Guaranty Co. issue a rider to this bond with the  
footage description.

Sincerely,

JOE D. RAMEY,  
Director
