REPAIRING WELL ☐
ALTERING CASING ☐
ABANDONMENT* ☐

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

5-31-85. Per telephone conversation with Mr. Townsend, BLM, Farmington, by Al Springer, YPC, casing changes proposed as follows:

Change 13-3/8" casing depth from 600' to 395'. Subsequent Geology determined this to be best point.

Change 9-5/8" casing point from 3500' to 4047'. At 3500', we were drilling basin fill and had not found suitable formation for casing point.

Change hole size from 7-7/8" to 8-1/2" to allow running string 7" casing, if necessary, due to unexpected conditions down hole.

RECEIVED

JUN 17 1985

OIL CON. DIV.
DIST. 3

18. I hereby certify that the foregoing is true and correct
