Gentlemen:

This letter is to inform you that more than eighteen months have elapsed since this agency has received any required reports on the above mentioned well. Accordingly, Rule 202 of the State of New Mexico Oil Conservation Division Rules and Regulations state that a copy of electric logs, Forms C-103 and C-105 must be submitted to the District Office thirty days after the completion of the well.

If the above mentioned forms and electric logs are not received at this office within 15 days, this matter will be turned over to the legal department of this division.

Your assistance in helping close our files would be greatly appreciated. If you have any questions concerning the above, please contact this office.

Sincerely,
