

8/6/82

Carl -

Call Sam Shaw the landowner
where the RAF well is drilled.

He called because he noticed
the legal ad on the plugging
case and thought he had
the well as a water well.
I told him we had no objections
to him having the well but
there were other problems con-
cerned with it.

His number in Mountainair
is 847-2719. If he is not
there you can call his
wife at 847-2341

Sam

8/9 - Called Mrs. Shaw. Explained that they did
in fact have proper Water well forms filed but
RAF owes us C-105 & logs.

8/10 - Talked with Sam Shaw. Said only way he
could help clearing up case would be to put
pressure on RAF to file 105 & logs.
