Re: Judd Well No. 1-X  
6-3N-7E  
Torrance County, New Mexico

Dear Mr. Wilson:

A field inspection by this office was made on April 13th on the above-referenced location. Site reclamation and clean-up of the location was determined to be acceptable. The intent of our rules with respect to site reclamation is to reclaim the well location to its original condition as close as possible. This also includes fences that were cut to gain access. Please make the appropriate arrangements to have this fence placed back in original condition with no access gate per landowner's request.

When this work is completed, please notify this office and arrangements will be made for the release of your bond.

Sincerely,

ROY E. JOHNSON,  
Sr. Petroleum Geologist

REJ/dr
