

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

INSPECTION REPORT

December 5, 1952

SWEETMAN & ADAY
DRILLING ASSOC.

RE: Cecil D'Spain #1
NENW Sec. 12-6N -6E
Torrance County

No work has been done at this well since the previous report. Reasons given by the operator are that the access road, State Road #10, is under construction and makes it difficult for them to get in to the lease with a load of cement which is needed at this time. Also mentioned was the fact that the road to the lease from the state road has been impassable due to wet weather.

Plans for the well remain as reported and will be carried out as soon as possible.

E.A.C.

EUGENE A. CHAVEZ,
Geologist-Dist. # 4
