

INSPECTION REPORT

January 29, 1953

SWEETMAN & ADAY
DRILLING ASSOCIATES

Re: Cecil D'Spain #1
NENW Sec. 12-6N-6E
Torrance County

The status of this well is drilling at a total depth of 825' in a dark gray sandy shale. Work has continued unabated during daylight hours but progress has been slow due to the hole's caving badly whenever the bit is run.

Fourteen inch surface casing was run and cemented with 12 sacks at 60 feet during the week ending December 19. At this time the hole had a total depth of 815 feet. Following the casing job approximately ten days time was lost due to bad roads.

E.A.C.

EUGENE A. CHAVEZ,
Geologist-District #4
