Re: F. D. Myers Milbourn Well No. 1, Unit C,
Section 11, Township 6 North, Range 7 East,
Torrance County, New Mexico, \$5,000 One-Well
Plugging Bond No. 38222509

F. D. Myers Smith-Pace Well No. 1, Unit L,
Section 12, Township 6 North, Range 7 East,
Torrance County, New Mexico, \$5,000 One-Well
Plugging Bond No. 3221853

Gentlemen:

The Commission has received approved plugging reports concerning the above-described wells. Copies of the reports (Form C-103) are enclosed for your records.

Also enclosed is an Affidavit of Responsibility concerning the Milbourn well. Please complete the original (as marked in red) and return it to this office. The Smith-Pace well was not converted to water.

The subject bonds will be cancelled upon the return of the aforesaid affidavit.

Thank you for your cooperation in this matter.

Very truly yours,

GEORGE M. HATCH

OIL CONSERVATION COMMISSION
P.O. BOX 2005
SANTA FE, NEW MEXICO 87501

Dear Sir:

I am writing to you regarding the oil conservation commission's recent findings on the oil reserves in the state of New Mexico.

The commission has found that the oil reserves in the state are significantly lower than previously estimated.

This finding is based on a comprehensive study of the state's oil fields, which revealed that many of the fields are now depleted or are producing at a much lower rate than previously reported.

The commission is concerned that this finding will have a significant impact on the state's economy, as oil is a major source of revenue for the state.

Sincerely,

John Doe, Chairman of the Oil Conservation Commission

I am writing to you regarding the oil conservation commission's recent findings on the oil reserves in the state of New Mexico.
