17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We want to acidize and swab test zone from 1532 to 1582 feet before we abandon hole. About December 15, 1967, we hope to be able to start the final phase in completing this well. We will place additional cement behind the 5 1/2" casing before additional testing is made to make certain that the water zone at approximately 300 feet is isolated from the zones being tested.
