Dear Mr. McColl:

I have at hand your request of December 20, for a cut of the samples on your Means No. 1, Torrance County, from the depths of 3650' to 3686'.

I would be very glad to comply with your request except that the sample cuts which you furnished this office for this depth only consisted from about 1/4 to 1/2 teaspoon per cut. I am of the opinion that if this small amount was cut again it would be of very little value to either of us.

I am wondering if it would be at all possible for you to secure one of the other cuts which must have been made. I have not yet filed these with the Bureau of Mines, but it is our procedure to file a cut of every well drilled which are continuously available in the Bureau of Mines' files at Socorro, New Mexico.

Very truly yours,

ELVIS A. UTZ,
Gas Engineer

Dear Sir:

Inclosed, herewith, you will find several sample envelopes. It would be greatly appreciated if you will give us a cut of the samples filed with your office from 3650' to 3686' total depth on our Means No. 1, located in Torrance County, New Mexico. This well was drilled during April, May, and June of 1950. Inadvertently our only cut of these samples was forwarded to your office, and we need the bottom footage mentioned above to complete our file. Thanking you in advance for your prompt attention to this matter, we remain,

Yours very truly,

R. OLSEN OIL COMPANY
