Mr. Frank C. Barnes
Oil Conservation Commission
Santa Fe, New Mexico

UMBARGER # 1 STATE, SEGE 3-8N-14E.

Dear Frank,

The U.S.G.S. has called our attention to the fact that oil Scouts have reported location of this well as 660' from the South and 1760' from the West line, while our C 101 shows the location as 330' from the South and East lines.

I presume you have varified the correct location and suggest that you notify Mr. Roy A. Kragrud, Chief Clerk, U.S.G.S., Roswell, New Mexico of the correct footage.

Very truly yours,

Frank Sweeney
