Re: Sadler Well No. 1, Unit 1, Sec. 3
Bond No. 572E6232
Your File: 120 SR V42 7894 R

Dear Mr. Morkan:

In regards to the above said well in the State of New Mexico, we are sending a copy of the Driller's statement showing the figures to plug the said well. As you can see the figures are more than what we had estimated previously.

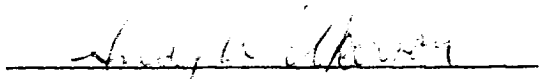

The plugging needs to be done within the next thirty (30) days before the winter weather sets in, so the trucks will be able to get in and out of the field.

We will be waiting for a quick reply , so we can notify the State of New Mexico and the Driller. As soon as we hear from you we will start the procedures on the well.

Thank you very much for your response to the above matter.

Very Truly Yours

Mr. Andy Wilkerson
6105 NW 32
Bethany, Okla. 73008
