(505) 827-2434

Energy Oil and Gas Corporation
6105 Northwest 32nd St.
Bethany, Oklahoma 73008

Attention: Gary Andy Wilkerson

Subject: Sadler Well No. 1,
Unit I, Section 3, Township
24 North, Range 29 East,
NMPM, Union County,
New Mexico

Gentlemen:

The subject well has been abandoned and it is now overdue for proper plugging. (See Rule 202). Since no notice of intent for such plugging has been received by this agency and no change of plans from those submitted on January 16, 1979 have been filed, it is assumed that drilling operations have terminated.

To insure that the State Regulations are complied with, a show-cause hearing is being scheduled for April 11, 1979. If you do not wish for the well to be ordered plugged on that date, you may appear and offer testimony and/or data to justify some other action. A docket of that hearing will be mailed in the near future.

Very truly yours,

Carl Ulvog by ag
