Memo

From
CARL ULVOG
Chief Geologist

To :

Baker & Taylor Drilling Co.

Approval of attached report not
sufficient to authorize Legal
Department's payment for the
plugging. See attached copy
of Rule 1103 - B.

No need to repeat information
on attached C-103 but we do
need your statement that
location is ready for inspection

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Baker & Taylor Drilling Co. rig # 18 was moved in and rigged up on location April 24, 1984. Bridges were washed out and total depth was reached April 26 at 7100'. Plugs were all Class "C" cement mixed at 14.8 lbs/gal and set as follows:

#1 7080-6950, 50sxs
#2 6730-6570, 50sxs
#3 5550-5450, 50sxs
#4 5000-4900, 50sxs
#5 2640-2540, 50sxs
#6 2140-1990, 50sxs
#7 650-560, 75sxs
#8 30-0, 10sxs

5 sxs each were pumped in Rat & Mouse Holes. Rig moved off location April 28, 1984

Bradenhead was removed and a 5' section of pipe was set in the cement as a monument marking the location. A plate was welded on top of the pipe and the legal description of the location welded onto the plate.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED David P. Myers TITLE geologist DATE May 7, 1984

APPROVED BY _____ TITLE _____ DATE 5-10-84

RULE 1103. SUNDRY NOTICES AND REPORTS ON WELLS (Form C-103)

Form C-103 is a dual purpose form to be filed with the appropriate District Office of the Division to obtain Division approval prior to commencing certain operations and also to report various completed operations.

B. Form C-103 as a Subsequent Report

Form C-103 as a subsequent report of operations shall be filed in accordance with the section of this rule applicable to the particular operation being reported.

Form C-103 is to be used in reporting such completed operations as:

- (1) Commencement of drilling operations
- (2) Casing and cement test
- (3) Altering a well's casing installation
- (4) Temporary abandonment
- (5) Plug and Abandon
- (6) Plugging back or deepening
- (7) Remedial work
- (8) Installation of artificial lifting equipment
- (9) Change in ownership of a drilling well
- (10) Such other operations which affect the original status of the well but which are not specifically covered herein.

Information to be entered on Form C-103, Subsequent Report, for a particular operation is as follows:

Report of Commencement of Drilling Operations

Within ten days following the commencement of drilling operations, the operator of the well shall file a report thereof on Form C-103 in TRIPLICATE. Such report shall indicate the hour and the date the well was spudded.

Report of Results of Test of Casing and Cement Job; Report of Casing Alteration

A report of casing and cement test shall be filed by the operator of the well within ten days following the setting of each string of casing or liner. Said report shall be filed in TRIPLICATE on Form C-103 and shall present a detailed description of the test method employed and the results obtained by such test, and any other pertinent information required by Rule 107. The report shall also indicate the top of the cement and the means by which such top was determined. It shall also indicate any changes from the casing program previously authorized for the well.

Report of Temporary Abandonment

A report of temporary abandonment of a well shall be filed by the operator of the well within ten days following completion of the work. The report shall be filed in TRIPLICATE and shall present a detailed account of the work done on the well, including location and type of plugs used, if any and status of surface and downhole equipment, and any other pertinent information relative to the overall status of the well.

Report on Plugging of Well

A report of plugging operations shall be filed by the operator of the well within 30 days following completion of plugging operations on any well. Said report shall be filed in TRIPLICATE on Form C-103 and shall include the date the plugging operations were begun and the date the work was completed, a detailed account of the manner in which the work was performed including the depths and lengths of the various plugs set, the nature and quantities of materials employed in the plugging operations including the weight of the mud used, the size and depth of all casing left in the hole, and any other pertinent information. (See Rules 201-204 regarding plugging operations.)

No plugging report will be approved by the Division until the pits have been filled and the location levelled and cleared of junk. It shall be the responsibility of the operator to contact the appropriate District Office of the Division when the location has been so restored in order to arrange for an inspection of the plugged well and the location by a Division representative.

Report of Remedial Work

A report of remedial work performed on a well shall be filed by the operator of the well within 30 days following completion of such work. Said report shall be filed in QUADRUPPLICATE on Form C-103 and shall present a detailed account of the work done and the manner in which such work was performed; the daily production of oil, gas, and water both prior to and after the remedial operation; the size and depth of shots; the quantity of sand, crude, chemical or other materials employed in the operation, and any other pertinent information.
