Dear Bob,

Today I am delivering to your office a set of cuttings samples from the above captioned well representing the interval 0-420', with exception of 80-90' and 155-165' which are missing.

According to a drillers log in our possession the well was drilled to a total depth of 748' so that the interval 420-748' is missing.

I am attaching a copy of this log for your convenience.

Very truly yours,

EUGENE A. CHAVEZ, Oil & Gas Inspector - District #4
