Dear Sir:

In compliance with our telephone conversation of this afternoon, I am sending you six copies of Oil Conservation Commission Form C-102 for your use in filing the proposed plugging programs of the above captioned wells.

Confirming my request by telephone please submit the driller's logs of these two wells as accurately as you can gather this information. Your plugging programs will be considered accordingly.

The land owner has a right to request that the well be left for conversion to a water well. To release your client from further responsibility following the above mentioned plugging of the Hopson well, please submit an affidavit signed by the land owner whereby he assumes all responsibility of the well as plugged by you and turned over to the land owner.

Very truly yours,

E. A. C.

EUGENE A. CHAVEZ,
Geologist - Dist. 4
