Mr. Eugene A. Chavez c/o Jil Conservation Commission 50r 071 Santa Fe, New Lexico

Dear Mr. Chavez,

I am in receipt of your letter of 2-22-2 to tr. furner, in which you suggest the proper data and forms be tiled with your office in connection with the Amistal well.

ir. Chavez, I am not an oil man and den't profess to de, however, I sure have been getting plenty of emperience in this business, especially from a financial angle. Ir. Turner was supposed to be the can with the cil experience. I have not seen anything of Dr. Turner for over a month new. During this time, I find there have been numerous things disrepresented by him, which is very embarrassing, as well as costly, to me.

It is my desire to abandon the Amistad project entirely, and possibly the Sedan well, tcc. The lesson are terminating very rapidly and 1 am not in position to pay the rentals on same.

Mr. Noel D. Wallis would like to have the Anistad well for a water well, which is quite satisfactory with me, but I an our interested in complying with your regulations as outlined in the manual, so that I can be properly released from the bond, which you hold.

As you can sue, I am about at my wits end. I want to, and will cooperate in every respect to terminate the entire project. Any advise or assistance you can render will be more than approciated.

With kindest personal regards, 1 remain,

Sincerely jours,

R. P. Num Richard hum Co. pr. - Co. - OMMASSION
