

This area was checked for stones for five miles in all directions, none was found; therefore, the above is correct as to the present roads and fences.

This is to certify that I am a registered professional engineer and land surveyor, that this map was prepared from field notes of actual surveys, as shown, made by me or under my direction and that the same are true and correct to the best of my knowledge and belief.

Scale 1" = 500'
