Re: Bond U-414670 - 4721
Well Bond, Form No. 39-B-1 \$2500.00
Obligee: State of New Mexico
United States Casualty Company, Surety
Anniversary Date: Sept. 25, 1958

Gentlemen:

In discussing the Wells covered under the captioned Bond, Mr. Cecil S. Ringle, the Principal under this bond advises us that sometime during the latter part of June and the 1st of July, the two wells have been capped according to specifications.

We are wondering as to whether or not you people have been so advised and the District Engineer has made his inspection.

We would certainly appreciate a reply as to the present status of the wells.

Very truly yours,

RITTER GENERAL AGENCY
