Re: Harry C. Long - Dabies No. 1
Sec. 32-7N-1E Valencia County

Dear Mr. Bieberman:

On this date I am delivering to you the following samples
collected at the above captioned well:

Cutting samples of the interval 2460-5950' (missing samples
4110-5280). Samples of cores cut by wire line core barrel,
2 to 4' long for each interval cored as follows:

4375-4385'	5960-5970'
4385-4395'	5970-5980'
4395-4405'	5980-5990'
4405-4415'	5990-6000'
4415-4425'	6000-6010'
4437-4447'	6010-6020'
4487-4497'	6020-6030'
5950-5960'	6030-6037
	6069-6079

Schlumberger sidewall samples one each at following depths:

2374', 2420', 2496', 2925', 3120', 4043', 4199', 4250', 5912.
Samples circulated out after coring were collected at 6058 and
6069.

Very truly yours,

E.A.C.

E. A. CHAVEZ,
Geologist
