Dear Sir:

Reference is made to your letter dated August 1, 1961, directed to Mr. I. R. Trujillo regarding the well in Section 32, Township 7 North, Range 1 East, Valencia County, New Mexico.

According to the records on file at the Santa Fe office of the Oil Conservation Commission, Mr. Phil D. Lynch is the principal named on a \$10,000 Blanket Bond covering said well. Correspondence in the well file indicate the well was temporarily abandoned by you and has not been plugged in a manner approved by the Commission. Before final disposition of the well can be made, this office requests information as to the condition of the well at time of abandonment. Requested information should include T.D., amount of casing in hole and depth and size of cement plugs placed, if any. If this information is received it can then be determined whether or not this matter may be disposed of by you having the area around the well levelled by a bulldozer, or if re-entry to place cement plugs will be necessary.

Very truly yours,

J. E. KAPTEINA
District Engineer
