GENERAL MERCHANDISE

Grober well

January 13, 1940

Mr. Alex H. Andreas
State Geologist
Santa Fe, N. Mex.

Dear Mr. Andreas:

The report has been quite current for some time past that the Grober well, six miles east of Belen, was drilling into a Pennsylvania sand, and it stood in 6 or 7 feet of oil. No doubt, if this rumor is authentic and such a discovery has been made, it is known to you and to your office. I am writing to you in order to obtain the facts as we are very much interested in the matter and also ~~own~~ some property in the vicinity.

Yours very truly,

HUNING MERCANTILE COMPANY
