Dear Mr. Chavez:

We are enclosing, in quintuplicate, plat and the Corrected Form C-101 for our Moore #1 Well in Colfax County, New Mexico. You will note from the Corrected Form that the location has been changed since we filed the original Form C-101 with your office on June 14.

We thank you for your helpful instructions regarding plugging bond, plat, Form C-101, etc. required for this well. The well is drilling in coarse water gravel at 35 feet.

Very truly yours,
