

4) Ruston Well No. 1  
P-18-29N-22E

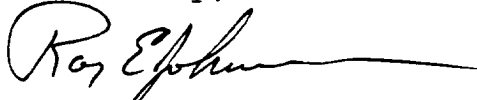

\* Bond is required before drilling can commence at this location. Also note that this is a non-standard location and must be approved prior to any production.

For your convenience, I am enclosing a data sheet for our Sundry Notices (C-103) that outlines the necessary data that the NMOCD requires. Also enclosed are copies of our completion forms (C-105) that are to be completely filled out in quadruplicate.

Your immediate attention on these matters is required before any more work can commence on this project. All bond information is to be sent to Diane Richardson in this office. All other information should be sent to my attention at this office.

I look forward to your cooperation in these important matters and if you have any questions, please contact me at 827-5810.

Sincerely,

A handwritten signature in dark ink, appearing to read "Roy E. Johnson", with a long horizontal flourish extending to the right.

ROY E. JOHNSON  
Senior Petroleum Geologist

REJ/dp

Encs.
