NATURE OF RELEASE

Type of Release Oil and Water	Volume of Release 21 bbls oil	Volume Recovered 21 bbls
Source of Release Offset operator frac	Date and Hour of Occurrence 2/17/15 6am	Date and Hour of Discovery 2/17/15 same morning
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? N/A	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	
If a Watercourse was Impacted, Describe Fully.* N/A	<div style="border: 1px solid black; border-radius: 10px; padding: 5px; background-color: #e0e0e0;"> <p>RECEIVED By OCD; Dr. Oberding at 12:48 pm, Mar 18, 2015</p> </div>	

Describe Cause of Problem and Remedial Action Taken.*

An offset operator frac'd into our well & caused a small stuffing box leak which led to a release at the battery inside the containment with plastic liner. Location had 1 bbl of oil & 15 bbls of water at well and 20 bbls of oil & 220 bbls of water at the battery inside the containment. Vacuum truck was called in to pick up oil and water. Oil was placed back into the tanks & water was hauled off to a SWD facility. Affected dirt was hauled off.

Describe Area Affected and Cleanup Action Taken.*

The caliche pad around the wellhead and plastic lined containment were the two areas affected. The pool of oil in the containment was picked up with a vacuum truck and put back in the tanks. Water was taken to a SWD facility. Field staff cleaned inside the tank battery. At the wellhead they dug down about one foot and removed the affected soil and hauled it off. Fresh dirt was laid down in its place.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
