Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

**RECEIVED**  
By OCD; Dr. Oberding at 2:09 pm, Apr 23, 2015

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
Equipment failure- Poly flow line over pressured and popped. Pumping unit was shut off; also tubing and casing valves were shut to stop the release.

Describe Area Affected and Cleanup Action Taken.\*  
Affected area- The ruptured flow line misted the pasture to the Northwest of pad an estimated 150 yards by 50 yards. Cleanup efforts (to be determined) will be in conjunction with NMOCD and BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
