Drawer 429  
Clovis, New Mexico 88101

Attention: Mr. R. N. Warren

Gentlemen:

Permission is granted to hydrostatically test 920 feet of 20-inch and 920 feet of 24-inch new pipe at Farley and Clovis, New Mexico.

It is my understanding that some 5,500 and 8,000 gallons of water will be used in the testing. This water will be fresh water and is to be disposed of in pits after the test is completed.

Yours very truly,

JOE D. RAMEY  
Director

JDR/fd
