Houston, Texas 77252-2099

**RE: DELAWARE CRUDE PUMP STATION**

Dear Mr. Stidham:

The New Mexico Oil Conservation Division (OCD) has completed a review of Shell Oil Company's (SOC) January 6, 1995 "DELAWARE STATION, LEA COUNTY, NEW MEXICO". This document contains a final reporting of the remedial actions performed at SOC's Delaware crude pump station and requests final closure of the remedial actions.

**SOC's request for final closure is approved.** The OCD considers the investigation and remedial actions to be completed in accordance with the regulations in effect at the time of closure.

Please be advised that OCD approval does not relieve SOC of liability should remaining contaminants pose a future threat to ground water, surface water, public health or the environment. In addition, OCD approval does not relieve SOC of responsibility for compliance with any other federal, state or local laws and regulations.

The OCD commends SOC for their initiative and diligence in remediating this site. If you have any questions, please feel free to contact me at (505) 827-7154.

Sincerely,

William C. Olson  
Hydrogeologist  
Environmental Bureau
