Dear Property Owner:

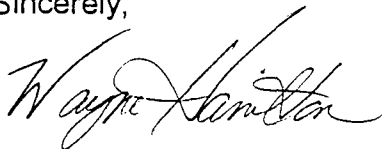

Attached is a public notice that will be published in the Hobbs NEWS-SUN and the Albuquerque Journal as required by the State of New Mexico's Oil Conservation Division. It explains that Shell has submitted a site assessment work plan for the former Grimes tank battery area, the Tasker Road area and adjacent Westgate neighborhood. The Grimes tank battery was located north of Sanger Street and west of Tasker Road in West Hobbs.

The purpose of this site assessment is to determine scientifically what is present in the soil or groundwater so that an adequate cleanup plan can be developed.

This public notice gives residents a 30-day comment period before the State finally approves the site assessment work plan. Once Shell has permission to begin the work, it will take at least 60 days to perform the fieldwork, complete the chemical analysis and develop a report for the State.

If you have any questions about our plans or activities, please call me on Shell's Westgate toll free phone at (800) 489-8109.

Sincerely,

Wayne Hamilton
Westgate Site Manager
