Dear Property Owner:

As part of our continuing effort to keep you apprised of the status of Shell's remediation activities in the Hobbs area, we are attaching a public notice that will appear in the Hobbs News-Sun, the Lovington Leader, and the Albuquerque Journal. The State of New Mexico's Oil Conservation Division (NMOCD) requires publication of this information.

Basically, the notice explains that Shell has submitted a second site assessment work plan for the former Grimes tank battery area, the Tasker Road area and the adjacent Westgate neighborhood. The Grimes tank battery was located north of Sanger Street and west of Tasker Road in West Hobbs. A complete copy of the Stage 2 Abatement Plan Proposal is available for review at the NMOCD office in either Hobbs or Santa Fe.

If they wish, property owners and residents have 30 days to comment on this notice before any further action can be taken by the NMOCD. Once Shell has received permission from the NMOCD for this portion of the project and begins work, it may take eight to ten months to perform the remediation fieldwork and complete a report for the NMOCD.

If you have any questions about our plans or activities, please don't hesitate to call me toll free at Shell Westgate, (800) 489-8109.

Sincerely,

A handwritten signature in cursive script that reads "Wayne Hamilton".

Wayne Hamilton
Westgate Site Manager

NOTICE OF PUBLICATION

**STATE OF NEW MEXICO
ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

Notice is hereby given that pursuant to New Mexico Oil Conservation Division Regulations, the following Stage 2 Abatement Plan Proposal has been submitted to the Director of the Oil Conservation Division, 2040 South Pacheco, Santa Fe, New Mexico 87505, Telephone (505) 827-7131:

Shell E & P Company, Wayne Hamilton, Project Manager, Telephone (800) 489-8109, 200 North Dairy Ashford, Houston, Texas 77079, has submitted a Stage 2 Abatement Plan Proposal for the former Grimes Tank Battery Site and portions of the Westgate Subdivision, located adjacent to the intersection of Tasker Drive and Berry Drive and the intersection of Berry Drive and Cobb Drive in the city of Hobbs, New Mexico. Shell E & P Company operated a crude oil tank battery at the site. Releases and disposal activities from former oil and gas production operations at the site have resulted in contamination of oils and groundwater. The Stage 2 Abatement Plan Proposal presents Shell E & P Company's proposed methods for remediation of the site including remediation of contaminated soils; remediation of contaminated ground water; an air monitoring, safety and health action plan; preparation of regular remediation reports; and a schedule for implementation of all remediation and monitoring activities.

Any interested person may obtain further information from the Oil Conservation Division and may submit to the Director of the Oil Conservation Division, at the address given above, written comments or a written request for a public hearing that include reasons why a hearing should be held. The Stage 2 Abatement Plan Proposal may be viewed at the above address or at the Oil Conservation Division Hobbs District Office, 1625 N. French Drive, Hobbs, New Mexico 88240, Telephone (505) 393-6161 between 8: a.m. and 4:00 p.m., Monday through Friday. Prior to ruling on any proposed Stage 2 Abatement Plan Proposal, the Director of the Oil Conservation Division shall allow at least thirty (30) days after the date of publication of this notice during which written comments or a written request for a hearing may be submitted.
